## LB-SILHOUETTE WORKS GT

満を持して2018年に発表したこのシリーズは「LB-WORKS」のさらなる進化形です。  
“グラチャン”を戦ったシルエットフォーミュラのレーシングカーをモチーフに、  
ルーフとドア以外のほぼ全てに渡って私たちLIBERTY WALKの世界観を表現。  
オーバーフェンダー一体型の斬新かつ独創的なスタイルを確立しました。

LIBERTY WALKと言えば“ワークスフェンダー”。世界ではそのように認識されています。  
その“ワークスフェンダー”を敢えて封印するという事で開発は困難を極めました。  
「LB-WORKS」とはひと味もふた味も違う全く新しい世界の扉を開くことができました。

これを成し得たのは日本の改造文化にこだわり続けてきたLIBERTY WALKだからこそ。  
「LB-WORKS」同様、このシリーズも私たちの代名詞として成長していくことでしょう。

In 2018, we were honored to release the latest evolution in our LB-Works line up: LB SILHOUETTE WORKS GT.

While keeping with the proud tradition of Japan Grand Champion Series Silhouette Cars, we have revolutionized the way LB-WORKS cars are built! Every panel on the car, with the exception of the roof and doors, will now be our new, innovative, wide-body, full panel replacements.

LIBERTY WALK is known around the world for its “Works Fenders,” aka-aggressive wide-body designs. It has taken years of pain-staking development, but we now offer an innovative way to have the LB-WORKS look by simply replacing full body panels on your car.

It is our unique Japanese background and years of custom car building that have brought LIBERTY WALK to the point it is today!

As a new part of the LB-WORKS line up, LB SILHOUETTE WORKS GT will continue to define LIBERTY WALK for years to come.

“ワークスフェンダー”が最大の特徴となるフルボディキットのシリーズです。  
ハイエンドカーという特別な存在に対し、リスペクトの念を示しながら、  
その一方で昭和の時代に流行した改造の手法“ワークスフェンダー”を大胆にアレンジ。  
壮大な存在感が備わるモデルたち本来の主張の大きさをさらに爆発的に増幅させます。

ハイエンドカーに改造を加えるという行為はそれ自体が本来はタブーとされてきました。  
しかし、私たちLIBERTY WALKはその常識を覆し、流麗なフォルムに電動カッターの刃を入れ、  
無骨な“ワークスフェンダー”をビス止めしました。  
発表した当初は様々な波紋を呼びつつも世界中で科学反応を起こし、  
いまや世界の人々が注目するカスタムムーブメントのひとつとして定着しています。  
これからも私たちは日本の改造文化を過激なまでに主張していく予定です。

“Works Fenders” refer to a traditional aggressive full wide-body LIBERTY WALK kit. While honoring the original beauty of an exotic vehicle, we take our traditional Japanese custom roots of “works fenders” and blend them with the modern supercar.. The result: we have managed to take epic supercars and make them even cooler!!!!

Until LIBERTY WALK came around, it was considered taboo to mess with a supercar! We came onto the scene with our grinding wheels and rivet guns and continued our march around the world, putting Works Fenders on supercars everywhere!  
We were criticized and laughed at back then... but look at things now!!!  
And we have only gotten started...

# LB-WORKS SUV

「LB-WORKS」の世界観を普段から体感していただきたい。  
その願いのもと、世界中で人気を集めるSUVをターゲットに設定したのがこのシリーズです。

より洗練されて登場したトヨタ・ランドクルーザー(300系)用やメルセデスAMG G63用は  
ハイエンドカーオーナーの皆様の日常生活にもマッチするよう、比較的ライトな造形ながら  
エンターテインメント性を秘めたボディキットとして完成させました。

また、JEEPラングラー(JL)用ではワイドフェンダーにピアスボルトをアレンジし、  
私たちLIBERTY WALK流の遊び心を表現しました。

「LB-WORKS」ほどには過剰に車高を落とすことなく、SUVに本来備わる魅力を保ったまま、  
自己主張を程良く増幅させる「LB-WORKS SUV」の各モデル。  
どのボディキットにもLIBERTY WALKの息吹が宿っているのです。

LB WORKS wants you to always have fun experiencing the best the world has to offer!!  
Continuing with that commitment, we are proud to announce our entry into the booming  
worldwide SUV market!

With the introduction of the very sophisticated Toyota Land Cruiser 300 Series and the  
Mercedes AMG G63, we have created SUV body kits to perfectly match the daily driver SUVs  
of high end luxury car owners! Our new body kits for these SUVs are subtle, but like every  
design from LB-WORKS; they are fun too!

For Jeep Wrangler JL owners, we designed wide fenders that attach with pierce bolts;  
aggressive and fun at the same time!

LB-WORKS has become infamous for slamming cars low to the ground, but the new LB-  
WORKS SUV line-up is about respecting what an SUV was built to do, while allowing you to  
personalize it, make it your own and most importantly have fun he LB-WORKS way!

# LB★PERFORMANCE

私たちLIBERTY WALKの原点と言えるのがこのシリーズです。  
圧倒的な開発力を誇る自動車メーカーが作る純正のスタイルの完成度が高いのは当然のこと。  
それらに飽き足らない私たちはベースモデルが本来持つバランスの良さを尊重しながら  
程良く主張を加え、この「LB★Performance」シリーズを作り上げていきます。

「LB-WORKS」のような“ワークスフェンダー”を装着していないため、  
一見ライトでインパクトの小さいシリーズのように捉えられがちですが、  
その実もっともこだわりが大きいのがこの正統派シリーズ。

世界の自動車メーカー各社とLIBERTY WALKの華やかな融合を  
もっとも感じていただけるのがこの「LB★Performance」と言えるかもしれません。

LIBERTY WALK's flagship brand is LB Performance.  
Modern supercars are incredible machines and the result of massive investments in  
research and technology by the manufacturers. We at LIBERTY WALK have the upmost  
respect for these incredible cars and their innovativeness. LB Performance aims to  
add some flare and individualism to an already awesome vehicle.

Our LB-WORKS series has very aggressive look. In contrast, LB Performance adds a  
subtle, yet beautiful “original” custom look to your car.  
Want to personalize your supercar without overly changing its original beauty? If yes,  
than LB Performance is your way to go!

# lb★nation

ハイエンドカーのオーナーの皆様はもちろん、より一般的なクルマ好きの皆様にも  
私たちLIBERTY WALKの作品を楽しんでいただきたい。  
そう願って開発をスタートさせたのがエントリーシリーズの「lb★nation」です。

国産車や輸入車の中でも比較的手が届きやすいモデルを対象としていますが、  
その内容はエントリーシリーズというレベルをはるかに超越し、  
どの部分を見てもまさにLIBERTY WALK流と言うべきもの。  
それでいて、“小さなGクラス”と表現できる「G mini」(スズキ・ジムニー)、  
NSXのようにシャープなフォルムを誇る「SSX-660R / 660」(ホンダS660)、  
日産GT-Rをデザインモチーフにした「GT-K」(ダイハツ・コペン)など、  
そのネーミングからもわかる通り、キュートで親しみやすいのも人気の秘密です。

From high end supercar owners to your average car enthusiast, we want everyone to be able to enjoy LIBERTY WALK products! That is why we have introduced our brand new entry series called lb★nation !

From Japanese cars to Imports as well, we hope everyone can enjoy a LIBERTY WALK look on their own car! We took the Suzuki Jimny and created a mini G-class wagon called the G Mini. We took the Honda S660 and created the SSX-660R/660 Mini NSX! The Daihatsu Copen has become the base for our mini- GT-R; called the GT-K. With LIBERTY WALK, even small cute cars like these become unique and fun mini- supercars!!

# LIBERTY WALK'S HISTORY

## 日本が世界に誇る改造文化 “ワークスタイル”を世界に発信し続ける 「LIBERTY WALK」

JAPANESE CUSTOMIZATION CULTURE “WORKS STYLE”  
BROUGHT TO YOU WITH PRIDE BY : LB WORKS

「チューニング」や「ドレスアップ」ではない。  
いまでこそ「カスタム」なんて洒落た言葉があるけれど、  
それとも少し違う。

「改造」。  
私たちのスタイルを表現するにはその言葉こそがしっくりきます。

バンパーを外し、違う車種のヘッドライトを移植し、  
そしてオーバーフェンダーを装着する、  
いわゆる昭和の時代の街道レーサー。  
日本古来のカスタムカーカルチャーのひとつであり、  
好き嫌いがはっきり分かれる“暴走族スタイル”を  
ハイエンドカーをベースにやろう！  
そう考えたのが「LB-WORKS」のスタートです。

“Tuning” and “dressing” cars up is not what defines us.  
“Customization” may be a popular term, but it too does not describe  
what we are about.

“Kaizo”

The Japanese word “Kaizo” is the one word that best describes  
what we do.

Kaizo includes things like removing body panels, bumpers and retro-  
fitting cus-tom headlights from other cars.

Kaizo means cutting and riveting over-fenders on to make a car  
wider.

Think about a traditional Japanese Kaido Racer and you will  
understand the meaning of Kaizo.

We respect our traditional Japanese Kaizo background and while  
not everyone may appreciate this style, we have made it our mission  
to bring Japanese Bos-ozoku Style to the high end supercars of  
today!

That was the concept behind the beginning of [LB-WORKS].

誕生について説明するには、  
ある人物に触れないわけにはいきません。

ある日、リバティーウォーク代表・加藤 渉の友人でもあった  
ひとりのお客様が「ランボルギーニに乗りたい」と言いました。  
私たちが調達したディアブロに満足したそのお客様は  
その後、ムルシエラゴに乗り替えました。  
しかし、ノーマルのムルシエラゴからは  
ランボルギーニらしい猛々しさが感じられませんでした。  
「もっと格好良くしたい」というお客様の要望もあり、  
2008年、私たちはムルシエラゴ用の  
オリジナルボディキットを開発することになりました。  
これが「LB★Performance」の始まりです。

翌2009年、「LB★Performance」のボディキットを装着した  
ムルシエラゴをSEMA SHOWに出展。  
「LB★Performance」は世界デビューを果たしました。  
しかし、来場者からの評判が良かったにも関わらず、  
ほとんどビジネスに繋がることはありませんでした。  
認められたのか、それとも認められなかったのか。  
モヤモヤした気持ちが後に残りました。

そこでやめてしまうのは簡単です。  
しかし、一度引いたらもう二度と前に出ることはできません。  
私たちは「ワークスフェンダー」を装着した  
「LB-WORKS」ムルシエラゴを新たに開発し、  
2012年のSEMA SHOWで発表しました。

何千万円もするランボルギーニのボディに  
大胆にも電動カッターの刃を入れ、  
「ワークスフェンダー」をビス止めする「LB-WORKS」。  
このインパクトは強烈でした。  
「LB-WORKS」ムルシエラゴを見たアメリカの人々は、  
「日本人はここまでやるんだ！」と拍手喝采して喜んでくれました。

## 2013 May MFEST

## 2013 May 50th Anniversary

When reflecting on the start of the「LB-WORKS」and 「LB★Performance」brands, we remember a very special person who had a huge impact on us as a company. LIBERTY WALK President Wataru Kato had a long time customer who one day said he wanted to own a Lamborghini. LIBERTY WALK found him a Diablo, which he enjoyed for a while before deciding to switch to a Lamborghini Murcielago. Not long after getting his Murcielago however, he wasn't satisfied with the way the car was. It didn't feel or look like a real "bull" to him! He wanted to make the car look meaner and even cooler! That is what motivated LIBERTY WALK to devel-op our first body kit for the Lamborghini Murcielago. This was the start of the 「LB★Performance」brand.

In 2009 we took that Lamborghini Murcielago, with its new「LB★Performance」body kit to SEMA Show in Las Vegas. It was the world premier of 「LB★Performance」. The response from attendees at the show was terrific but unfortunately it did not lead to any sales. The whole experience left us very unsure about the future.

It would have been easy for us to give up and quit at that time. But once you pull back there will likely never be that same chance again! So in 2012, with a freshly redesigned 「LB-WORKS」body kit installed, we brought the Murcielago back to SEMA.

We cut the fenders on a 6 figure supercar with a grinding wheel! We took our "works" over-fenders and riveted them directly to the body, leaving the exposed rivets to be seen! The impact on the SEMA attendees was huge! We received very much applause and praise! People were intrigued and shocked by what this Japanese company actually did to a supercar!

In 2016, we opened [LB☆LAND], an amusement park that we hope will spread the enjoyment of cars with kids from all around the world! We also introduced the [LB☆KIDS CAR] line up which features [LB-WORKS] style ride-on mini cars for kids. In 2019, we started [LB FARM] to bring young people in touch with the importance of farming as well as [LB-HOBBY], which hopes to bring parents and children both together to enjoy cars.

Furthermore, in 2019 Liberty Walk held its First Annual "My Liberty Walk" Event, where the best toy model car was chosen among all the participants and from that design a real car was built!

In 2020 the Second Annual "My Liberty Walk" Event was held and the winning model of a Nissan Silvia S15 Formula Drift Car was built and unveiled at Okuibuki Motorpark!

In 2021 Liberty Walk became full competitors in Formula Drift Japan. The team finished 3rd place in our first season and contributed to the growing popularity of drifting; which was born in Japan! In 2021, we also participated in the SEMA Show in Las Vegas announcing our Limited Edition LB-Silhouette WORKS Aventador GT Evo.

In 2022, we unveiled our 4 rotor, rotary engine powered Nissan GT-R (R35) and competed with it in Formula Drift Japan. We were also the first Asian tuning company to participate in the infamous Goodwood Festival of Speed; where our Nissan Silvia S15 Formula Drift Car was driven by pro-driver Testuya Hibino; further spreading the excitement of drifting all around the world! Finally in 2022, we opened a new American Style Concept Showroom called "Wataru Kato's Secret Man Cave."

# 2022

Every [LB-WORKS] car is made by hand.  
There will never be 2 of our cars built exactly alike.  
We believe everyone's car should be unique.  
You will appreciate the "Samurai Spirit" we instill in everything we do.

LIBERTY WALK owner Water Kato and all of the staff at LIBERTY WALK want to spread a message to everyone around the world:  
Do what you like and don't care what other people think!  
Don't be tied to any one thing and always express yourself freely!  
Finally, take criticism and turn it into positive energy for yourself!

There is an old saying that "the nail that sticks out gets hammered down." There is an exception to that saying however. "If a nail is sticking too far out, then it can not be hammered back in place!" We take great pride in "sticking out" with our Japanese Works style and will proudly continue to spread this look all around the world.

Today, that first Lamborghini Murcielago that Kato's friend and customer asked him to build remains in Kato's personal possession as a prototype. Kato visited with that customer for the last time right before he passed away from illness. He promised his friend and customer that he would make that Murcielago the most famous Lamborghini in the entire world! It wasn't long after that his Murcielago made its debut in a D1 Grand Prix and has since travelled throughout the entire country of Japan participating in events of all kinds. This car has very deep meaning to Kato who has vowed to never get rid of it.

## LB FARM

2022年には4ローターエンジンを搭載した日産GT-R (R35) でフォーミュラ・ドリフト・ジャパンに参戦。  
また、イギリスの由緒ある車の祭典"Goodwood Festival of Speed"に、アジア圏のチューニングメーカー初として出展し、フォーミュラ・ドリフト・ジャパン2021に参戦した日産シルビア (S15) を日比野哲也選手がドライブ。ドリフトの魅力を全世界に披露しました。  
また、アメリカンスタイルのコンセプトショールーム、「加藤 渉の秘密基地」も限定オープンしました。

「LB-WORKS」は1台1台が手作りです。  
だからたくさん数を作ることは不可能。  
また、「同じ仕様の車両を2度作らない」というのが私たちの主義です。それだけに1台1台の「LB-WORKS」には私たちの思いがみっちり詰まっています。魂がこもっています。だから感動を感じていただけるのだと思います。

このように代表の加藤およびリパティエウォークは、誰にも遠慮せず、なにものにも縛られず、自由な意思で表現することを貫いてきました。同時に数多くの否定論をパワーに変え、世界にムーブメントを作ってきました。

出る杭は打たれますが、出過ぎた杭は打たれません。  
これからも私たちは日本が誇る改造文化である「ワークススタイル」を世界に向けて発信し続けます。

なお、「LB-WORKS」の原点となったムルシエラゴのプロトタイプは加藤の友人だったお客様の愛車がベースとなっています。大病を患って他界する1週間前、加藤はそのお客様に「世界で一番有名なランボルギーニにするから心配するな」と約束しました。D1グランプリの参戦車両としても活躍したその車両は現在も加藤名義で所有し、いまなお全国各地のイベントでその雄姿を披露しています。  
この車両はこれからも手放すことはありません。
